Java 19 Installed

I5 6402p Rx 480 16Gb Ram

- Report type: e.g., coding, design issue, etc.

Coding

- Can reproduce: yes / no / sometimes / unknown.

Yes

- Severity: assigned by tester.

Low

- Problem summary: 1-line\

Userprofile GUI allows for any input when all boxes are full, for example, if you enter ! for all boxes, it will accept it and output a thank you message with the height being !, and weight being ! etc.

- Problem description and how to reproduce it

Go to userprofile gui and enter any character that should not be accepted such as @ or ! into all boxes and click submit

- Suggested fix

Check all boxes to ensure that no characters that are unfit for input are entered.

- Status: Tester fills this in. Open / closed /resolved
